

# IEEE WPI Student Branch

## Lounge Policy

By gaining access to WPI's IEEE Lounge in AK 106, you agree to abide by the following rules. Having our own space on campus is a privilege, and these rules help keep the space functional and clean for everyone!

1. Do not take other people's belongings. This includes, but is not limited to, food, electronics, and personal items.
2. Do not remove shared items from the lounge. This includes, but is not limited to, supplies, furniture, and equipment.
3. Clean up after you leave. This includes, but is not limited to, making sure the shared surfaces are kept tidy.
4. Do not host meetings in the lounge, unless they are related to IEEE.
5. Do not leave food in the fridge for more than a week.
6. Be nice to others! We're all friends here :)

We're trying to build an open, fun, collaborative place on campus. This space belongs to all of us — we want you to bring your personal touch and help make it better! There aren't any rules on what should/shouldn't be in the lounge, so feel free to bring whatever you want. If there's something you think the club should purchase or restock, please let the executive board know!
